### **ROAD CLOSING – LINDSEY STREET, ELM TO CHAUTAUQUA**

Beginning Monday morning, May 18, 2015, PM Construction under contract with the Norman Utilities Authority, will begin replacing sewers along Lindsey Street from Elm Avenue to Berry Road. Since the sewer line is in the middle of Lindsey, this work will require temporarily closing the portion of Lindsey Street from Elm to Chautauqua.

Other street closures will be issued as required during this project. Signs will be placed by Action Safety Supply Co. to direct drivers.

Access will be limited to only local residents, as needed. Drivers are urged to use alternate routes. Delays can be expected. Alternate routing via Brooks Street is strongly recommended to bypass the current work. Weather permitting, work should be complete and Lindsey re-opened by Friday, May 22<sup>nd</sup>.

The Sewer Maintenance Project is an annual \$2.7 million sewer replacement project. It is funded by the \$5/month sewer maintenance fee paid by utility customers, as approved by voters in 2001. The project will replace old damaged sewer lines and manholes in the project area bounded by Boyd Street to the north, Imhoff Creek to the west, Timberdell Road to the south, and Elm Avenue to the east. The total project is scheduled to be complete by September 2015.

Questions or comments may be directed to Charlie Thomas, City of Norman Project Manager, (405) 366-5443 or [charlie.thomas@normanok.gov](mailto:charlie.thomas@normanok.gov).

***PLEASE SLOW DOWN AROUND ALL CONSTRUCTION AND WORK ZONES !!***
